To Whom It May Concern:

Mansion House Inn, Health Club & Spa, has been very fortunate to have had the benefit of Marina Feeney's energy and commitment over the past two years.

In the Spa business it is the technician that really seals the deal with the guest. Marina brought her extensive knowledge of massage, cosmetology and hair removal as well as her warm personality to table every time. Marina has always made her self available when the Spa needed her most. She is always willing to cover for fellow technicians at short notice and has always been on time and ready for her prescheduled treatments.

Mansion House Spa offers a wide variety of treatments, all of which Marina is educated in and accomplished; Swedish, deep tissue, combination, sports, reflexology and therapeutic massages as well as body wraps, facials and hair removal. During the time that Marina has been at our Spa she has developed clients in all areas of our operation.

We wish Marina all the best in her next endeavor and sincerely believe that whatever she chooses to do will benefit from her wonderful work ethic and host of skills. It was our good fortune that Marina choose to work with us and we truly appreciate it.

Marina has our endorsement along with our thanks.

Sincerely,

Nili Beth Goldstein
General Manager
